Hi (b) (6)

I don't have an update for you unfortunately. I don't think there has been any change since last we were in touch. We have given ADEC our comments regarding the potential listings and are waiting for them to submit their 2012 list for us to take action on. As far as I know, they are still internally reviewing the information to determine how they would like to move forward. I would maybe ask Tim Stevens if he has a better sense of the timeline they are working on. I haven't heard anything on this front in quite awhile.

I believe ADEC has begun their process for generating the 2014 list. I would encourage you to be involved in the public participation process, as I know you have been in the past. Thanks for continuing to follow this issue. Please be in touch if you have more questions (although I may not have answers!) or if you just want to talk about it.

Hi Jill,

Our board doesn't meet over the summer, but has its first meeting of the season next week. I was reviewing notes and outstanding items of interest. Last May I reported that EPA and ADEC were still in negotiation over the 2012 Integrated report. Of particular interest to us are the Section 303(d) listings for the Kenai River and the Little Su, neither of which appear to meet water quality standards at times. Can you give me a quick update on where the reports are?

Thanks (b) (6). Have a great, safe trip. Please tell everyone to feel free to contact me anytime while you're gone if they have questions. Hopefully things will have moved forward in some fashion by the time you get back! Take care and have fun!

Jill - As per our recent phone conversation, today is my last day in the office until mid-March. As we discussed, it is unlikely that there will need to be any followup from (b) (6) on the Kenai River turbidity data but if there are any unanticipated technical questions regarding data or analysis, (b) (6) would be your best contact in my absence. Our acting executive director is (b) (6) it would be appropriate to copy her with any correspondence.

Thanks again for all your time and effort,

(b) (6)
